

Adopt a Drain

You can help keep our local community clean and safe by adopting a drain - It's easy and only takes a few minutes of your time!

Simply choose a drain in your neighbourhood and make sure it stays clear of leaves, rubbish, and other stuff that can block it. Just spend 15 minutes every now and then clearing the top.

Remember to be careful and stay safe while you're doing this. Don't try to lift the drain cover or stand in the road.
